EDUCATION

2022 - Now

Bachelors of Computer Science Artificial Intelligence, Machine Learning & Virtual Reality

School of Computer Science and Engineering, Sandip University, Nashik, Maharashtra, India, Nashik

My interest in AI began in the seventh grade when I first saw a pencil that could read text by simply being placed on it. I was amazed that this technology could help blind and low-vision people access information more easily. So from that day, AI will be the key to the solution of all problems in the future.

PROFESSIONAL SUMMARY

I am an experienced professional with a diverse background in technology, business, and data science. Over the years, I have honed my skills and acquired valuable experiences that make me an ideal candidate for the job.

- Data Analytics: Proficient in data analysis for informed decision-making.
- App Development: Experienced in app development, an asset for tech-driven companies.
- Content Creation: Skilled at creating engaging content for a wider reach.
- Project Management: Seasoned Project Manager with leadership and team support.
- After Effects UI: Proficient in creating excellent user interfaces.

EXPERIENCE

CTO   2022 - Now

Stylinza, India, Nashik

Stylinza was a platform that gave a voice to unique offline brands. My role was to tackle all the challenges and problems faced in making these brands online while maintaining their unique identity. This included sales, audience demand, user experience, and backend database management with website workflow.

Team Leader   2020 - 2021

Biosash Business Pv Ltd Silver Director Biosash Business Pv Ltd, India, Nashik

The first experience was when I talked with the persons who had health issues, after understanding their problems I suggested to them some products that our company sells that make me happy, the reason I quit work is I feel I can't change everyone by going to them personally but I can do virtually something that will connect everyone. so I started learning coding, and app development......

Project Manager   2021 - Now

ANDS Network, India, Nashik

I am the managing head of the project management and a supporter of the validation of the project.
